EXPERIENCE

• Software Tester – Automation & Manual

Jan 2025 - Present

Simpel.ai

Bangalore

- Developed and executed **Selenium automation scripts** using Java, TestNG, and POM for key workflows.
- Automated **login, dashboard, and regression workflows**; created strong XPath/CSS locators and debugged failures.
- Executed automation suites through **Jenkins (CI/CD)** and collaborated with developers on fixes.
- Contributed to **framework enhancements**, reusable components, and overall script optimization.
- Performed Functional, Regression, Integration, UI/UX, and E2E testing; logged defects in **Jira** and supported release documentation.

• Data Analyst Intern

Jun 2023 - Jul 2023

Teachnook

Online

- Reduced data redundancy by 40%, improving overall data consistency and accuracy.
- Delivered analytical insights that contributed to a 25% improvement in business growth opportunities.

PROJECTS

• Employee Timesheet & Workforce Management System (Automation + Manual)

A workflow-based timesheet and attendance management platform.

- Automated **login, timesheet entry, and approval workflows** using Selenium, Java, and TestNG.
- Built and maintained **POM-based automation scripts** with reusable functions and dynamic locators.
- Automated critical **regression test cases** and executed suites through Jenkins.
- Designed and executed manual **Functional, Regression, Integration, and E2E** test scenarios.
- Logged defects in Jira and validated workflow rules, reports, and calculations.

• Aptia – Employee Benefits And Pensions Platform | Manual Testing, Web Testing, Agile

Enterprise HRTech platform used by 7M+ users for benefits, pensions, and compliance.

- Tested Onboarding, Eligibility, Claims, and Enrollment workflows and executed business-focused test cases.
- Performed Functional, Regression, Smoke, and Cross-Browser testing; logged defects in Jira and coordinated fixes.
- Validated pension rules, calculations, and benefit configurations across modules.
- Skills: SaaS Testing, Workflow Testing, Cross-Platform Validation, Jira, Agile.

• Ekal Arogya – Rural Health Monitoring System | Manual Testing, Functional Testing, Healthcare Domain

A healthcare platform for rural patient data tracking and vitals monitoring.

- Tested patient registration, vitals input, records, and reporting workflows.
- Designed/executed 100+ functional and usability test cases; validated data accuracy.
- Reported and verified defects ensuring stable user workflows.
- Skills: Functional Testing, UI/UX Testing, End-to-End Validation, Agile.

TECHNICAL SKILLS

Automation Skills: Selenium WebDriver, Java, TestNG, Page Object Model (POM), XPath/CSS Selectors, Automation of Regression Suites, Framework Enhancements, Jenkins (CI/CD), Script Debugging

API Automation: Postman, RestAssured (Basics)

Manual Testing: Functional Testing, Regression Testing, Integration Testing, UI/UX Testing, End-to-End Testing

Tools: Jira, Postman, Jenkins, Git

Databases: MySQL

QA Documentation: Test Cases, Test Scenarios, Bug Reports, Test Summary Reports

Methodologies: Agile (Scrum), SDLC, STLC

Soft Skills: Attention to Detail, Problem Solving, Communication, Quick Learner

EDUCATION

• Bachelor of Technology in Computer Science and Engineering(CSE)

2020-24

Sambalpur University Institute Of Information and Technology

CGPA:7.5
