

# KALPESH MALI

## Software Tester

+91-7378809216 / 9657180337

kalpeshmali016@gmail.com

India

### SUMMARY

Experienced Software Tester with 2 years of expertise in both manual and automation testing using Selenium, ensuring comprehensive website analysis and validation.

In-depth knowledge of Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC), facilitating thorough understanding and execution of testing processes.

Adept at creating and managing project deliverables, with strong skills in requirement gathering, management, communication, analysis, estimation, planning, and monitoring.

### CORE COMPETENCIES

- Automation Testing
- Requirement Management
- Test Planning
- Defect Life Cycle Management
- Regulatory Testing
- Object Repository Management
- Test Data Management
- Risk Analysis
- Test Script Management
- User Acceptance Testing (UAT)

## Professional Experience

### Vitech Solutions, Pune

Quality Assurance Engineer

Aug '2023- March '2025

- Led quality assurance initiatives, oversaw testing processes, and ensured adherence to industry standards and best practices in the development of industrial automation solutions.
- Developed and executed comprehensive test plans, including functional, regression, and integration testing, ensuring robust software quality across multiple projects.
- Managed a team of QA engineers, providing leadership, mentorship, and technical guidance to foster a culture of excellence and continuous learning.
- Conducted root cause analysis and collaborated cross-functionally to resolve critical issues, enhancing product performance and customer satisfaction.
- Implemented automated testing strategies using Selenium and Jenkins, resulting in a 30% reduction in testing cycle time and improved product reliability.
- Spearheaded continuous improvement initiatives, contributing to a 20% increase in defect identification efficiency through the implementation of Agile methodologies.
- Interfaced with stakeholders to communicate quality metrics, project status, and risk assessments, facilitating informed decision-making and project prioritization.

### Duiux Infotech, Surat

Quality Assurance Engineer

Jun '2022 - Jun '2023

- Led quality assurance efforts for software projects, ensuring compliance with industry standards and best practices in Agile development environments.
- Developed and executed detailed test plans, encompassing functional, regression, and performance testing to validate software functionality and reliability.
- Collaborated closely with cross-functional teams to identify and resolve software defects promptly, maintaining high product quality and user satisfaction.
- Prepared comprehensive test documentation and reports, providing clear insights into testing outcomes and recommendations for quality improvements.
- Implemented automated testing frameworks using Selenium and conducted manual testing to streamline testing processes and improve efficiency.

## Projects Handled

**Project Name:** E-Commerce website,

**Client Name:** SSENSE

**Type:** Manual Testing (Functional Testing, UAT, Regression)

11/2023 - 03/2025

**Project Description:** SSENSE, headquartered in Montreal, is a fashion platform with global presence, serving over 150 countries. At the forefront of directional retail, SSENSE curates a blend of luxury, streetwear, and Avant- grade labels. Renowned for industry-leading original content, SSENSE takes pride in developing technology solutions and systems internally. Roles & Responsibility:

## TECHNICAL SKILLS

- Manual Testing
- JUnit
- STLC
- JAVA
- PYTHON
- TestNG
- Software Development Life Cycle (SDLC)
- Test Documentation
- User Acceptance Testing (UAT)
- Risk Analysis
- SQL
- MySQL
- MS Office Suite (Word, Excel, PowerPoint)

## CERTIFICATION

- ISTQB Foundation Level Software Testing Certificate
- AWS Solution Architect Associate Certification
- Introduction to Python Programming

## Responsibilities:

- Analyzed requirements, authored, executed, and upheld test cases and scenarios within Agile Methodology.
- Collaborated with developers to conceptualize and craft over 50 test cases for ongoing maintenance and enhancements of internal applications.
- Tested applications like Inventory Management System, Postman, and PO-UI, supporting website functionalities such as user type management, stock maintenance, and visibility.
- Demonstrated extensive expertise in Software Testing Life Cycle (STLC), encompassing testing phases, processes, techniques and fundamentals, as well as Test Strategy, Planning, Execution, Test Case Management, and Defect Management.

## Education

### **Master Of Computer Application (MCA)**

**G.T. Patil Collage, Nandurbar (YCMOU)**

2023, CGPA -7.22

### **Bachelors Of Computer Application (BCA)**

**R C Patel Collage, Shirpur (KBCNMU)**

2021, CGPA- 8.64

## Declaration

I hereby declare that all the information mentioned in my resume is true and correct to my knowledge and take full responsibility for the accuracy of the particulars mentioned.
