

CAREER SUMMARY

Proactive, Progressive, capable and committed Software Testing professional with proven ability to successfully deliver QA/Testing projects within stipulated time-frame.

PROFESSIONAL EXPERIENCE AND SKILLS

Quality Analyst with 5+ years of experience in manual and automation testing. Easily collaborate with developers and project managers to accomplish milestones. Capable of discovering errors, resolving defects, and ensuring client expectations are met with high-quality software solutions.

- **Automation Testing:** Java, Selenium WebDriver, Page Object Model (POM), Cucumber (BDD), TestNG
- **Databases Testing:** MYSQL etc.
- **Bug Tracking Tools:** Jira, Bitrix.
- **API Testing Tools:** Postman.
- **Performance Testing:** JMeter, Blaze meter.
- **Operating Systems:** Windows, Linux.
- Strong knowledge of all phases of Testing (System/Regression/Integration/Acceptance).
- Expertise with different SDLC models including Agile.
- Managed QA/Testing projects (Manual Testing) with end-to-end ownership.
- Performing smoke testing, data-driven testing, and cross-browser testing.
- Functional and user acceptance testing multiple websites.
- Introduced Test Driven Development (TDD), Unit Testing & Continuous Integration.
- Setting up test environment and test data to be used during testing.
- Expertise in Manual Testing of software which includes Smoke testing/Build verification testing (BVT), Integration testing, Regression testing, System testing, Performance Testing, Sanity testing, User Acceptance testing, etc.
- Strong experience in working with teams on remote locations.

EDUCATION QUALIFICATION

- Bachelor of Technology (B. Tech)

AREAS OF EXPERTISE

- Manual Testing
- Hybrid Framework
- Functional Testing
- Ui Testing
- Database Testing
- API Testing
- Mobile Testing
- Cross Browser testing
- SDLC/STLC
- Client Interaction
- Agile Methodology
- UAT Testing
- Test Cases Design
- Release notes creation
- Test Execution

PROFESSIONAL ABILITIES

- Experience across different types of testing i.e., user acceptance, system integration, Load, etc.
- Experience working on Business, Technical, and Functional Requirements.
- Able to take preventative action to avoid risk.
- Understanding of different test approaches and techniques.
- Build awareness and understanding of current developments and best practices in testing.
- Making sure that all testing plans comply with company guidelines, standards, and regulations.

MANAGERIAL ABILITIES

- Managing Testing projects.
- Translate business processes into clear and comprehensive test scenarios.
- Experience of client facing roles.

Employment Summary

Organization	Designation	Tenure
Hitachi MGRM InfoTech Solution PVT LTD	QA Test Engineer	Feb 2024-Present
Sunflower Information Technologies	Software Test Engineer	Aug 2020-Feb 2024

Specific role/contribution in/to the project:

- Making automation script.
- Client discussions and Case studies
- Creation and Execution of Test Cases
- Creation of Test Plan
- Detection and Logging of Errors
- Manual Testing
(Module/Functional/Integration/System/Regression/Migration) and Database Testing
- Understanding Functional Requirements
- Release notes creation

Project: **Mheal (Healthcare)** Experienced healthcare IT professional with hands-on expertise in end-to-end Hospital Information Management Systems (HIMS), covering a wide range of modules including OPD Registration, OPD Billing, IPD Admission & Discharge, Operation Theatre (OT) Scheduling, Pharmacy Management, Store & Inventory Management, TPA/Insurance Workflow, Collection Management, Doctor Accounting, Appointment Scheduling, Laboratory & Radiology, Nursing Station, EMR/EHR Integration, and MIS Reporting. Proven ability to streamline hospital workflows, enhance patient care, and support operational efficiency while ensuring compliance with healthcare standards like NABH and HIPAA.

Role: **QA (Automation & Manual)**

Testing: Data testing, UI Functional Testing, API Testing, Regression Testing, Automation Testing

Defect Tracking Tool: Jira, Bitrix

Project: **Trimble Transportation (Ecommerce)** Verizon Communications Inc. was formed on June 30, 2000 and is celebrating its 20th year as one of the world's leading providers of technology, communications, information and entertainment products and services. Verizon customers have access to the robust network architecture of our 4G foundational network, the most technologically advanced 5G Nationwide network and 5G Ultra-Wideband, the world's fastest.

Role: **QA(Automation & Manual)**

Testing: Data testing, UI Functional Testing, API Testing, Regression Testing,

Defect Tracking Tool: Jira
